Education

Chaitanya Bharati Institute of Technology, Hyderabad
B.E. in Information Technology

2026

CGPA: 8.43

Government Polytechnic, Warangal
Diploma in Computer Engineering

2023

CGPA: 9.74

Experience

Cognizant Technology Solutions – .NET Full Stack Intern

Feb 2026 – May 2026

ASP.NET Core, React, Entity Framework Core, SQL Server, REST APIs

- Developed **CareSchedule**, a full-stack healthcare management platform for clinics and hospitals with 148 REST APIs, 32 controllers, 33 domain entities, and 6 role-based workflows.
- Implemented an intelligent slot generation engine that prevents double-booking by resolving provider availability, holidays, leave, blackout periods, and resource constraints before publishing appointments.
- Designed a 6-layer Clean Architecture using .NET, EF Core, SQL Server, and React to support secure, scalable clinical and administrative operations.

Projects

JournalAI

Next.js, TypeScript, Supabase, Docker, Kubernetes, Azure, GitHub Actions, Jenkins

- Developed an AI-powered journaling platform that processes journal entries and delivers structured mood insights using Groq AI, Next.js, and Supabase.
- Implemented end-to-end CI/CD workflows with GitHub Actions, Jenkins, Docker, and Kubernetes to standardize testing, containerization, and cloud deployment processes.
- Designed a production-ready cloud deployment architecture integrating secure authentication, PostgreSQL persistence, containerized services, and automated delivery on Microsoft Azure.

Activities for Discord

Android, Java, C++ , JNI, Discord Partner SDK

- Developed an Android application that enables complete mobile control of Discord Rich Presence, extending capabilities not available in the official Discord mobile client.
- Implemented a native JNI integration layer between Android and the Discord Partner SDK to maintain persistent SDK sessions and reliable real-time communication.
- Designed secure authentication, encrypted credential storage, intelligent image caching, and foreground/background services to keep Rich Presence synchronized during long-running app sessions.

Skills

Languages: C#, Java, Kotlin, TypeScript, JavaScript, SQL

Frameworks & Technologies: ASP.NET Core, .NET, Entity Framework Core, React, Next.js, Node.js

Databases: SQL Server, PostgreSQL, MongoDB, Supabase

Cloud & DevOps: Docker, Kubernetes, GitHub Actions, Jenkins, Microsoft Azure

Developer Tools: Git, GitHub, Visual Studio, Visual Studio Code

Certifications

- MongoDB Node.js Certification – MongoDB University
- Web Development 101 – Pupilfirst

Activities & Achievements

- Published the research paper **Multi-Task Graph Attention Network for Kinematic Rehabilitation Exercise Analysis** at the **2026 IEEE International Conference for Convergence in Computing Technology (I3CTCON)**, indexed in IEEE Xplore.
- Published the open-source Android application **WhatsApp Status Saver** on the official **F-Droid** repository.
- Secured **6th Place** in the **COSC HackWeek Challenge**, a week-long competitive coding event organized by **CBIT Open Source Community (COSC)** in collaboration with **GeeksforGeeks**.
- Volunteered as an event coordinator for a college Idea Presentation event, managing and assisting 20+ participants.
